REQUIRED SAFETY EQUIPMENT FOR VESSELS OVER 30 FEET IN LENGTH

HAGERTY CLASSIC MARINE INSURANCE AGENCY, LLC

- Audible high water bilge alarm equipped with sensor float switch below batteries and engine(s)
- VHF radio
- Vapor detector (gas powered vessels)
- Carbon Monoxide Detector (boats with cabin accommodations)

Hagerty requires the above listed items to be part of the regular equipment on all vessels over 30' in length, in addition to the required safety equipment by the U.S.C.G. Our Underwriters require written statement verifying this listed equipment is aboard and in good working order.

I certify that my vessel is equipped with the above listed safety equipment and it is in good working order.
